DIGITAL LITERACY

Essential skills for the modern learner: master critical thinking, online communication, and responsible technology use to thrive in today's digital world.

WHAT IS DIGITAL LITERACY?

Why Digital Literacy Matters for Students

Digital literacy is the ability to effectively and safely navigate, evaluate, and create information using digital technologies. In today's connected world, it's essential for academic success, career readiness, and responsible citizenship. Students who are digitally literate can distinguish reliable sources from misinformation and communicate effectively online.

Three key skills define digital literacy: Critical Thinking helps you evaluate online information and spot fake news. Online Communication enables professional and respectful digital interactions. Responsible Tech Use means understanding privacy, security, and ethical behavior in digital spaces. Master these, and you're ready for the digital age!

USEFUL DIGITAL TOOLS FOR STUDENTS

- RESEARCH TOOLS
- PRODUCTIVITY APPS
- NOTE-TAKING APPS
- CLOUD STORAGE

Digital Literacy

SAFE INTERNET PRACTICES

Strong Passwords & Privacy

Create unique passwords with 12+ characters, mix letters, numbers & symbols. Enable two-factor authentication and never share personal info publicly online.

Scam Awareness

Be skeptical of too-good-to-be-true offers. Verify sender emails, avoid suspicious links, and never share financial info with unverified sources.

Cyberbullying Prevention

Think before you post. Report harassment, block bullies, and support others. Remember: your words online have real impact on real people.

Digital Literacy

PROFESSIONAL ONLINE PRESENCE

Clean Your Social Media

Review old posts and photos. Remove anything embarrassing or unprofessional. Future employers will search for you online!

Think Before You Post

Ask yourself: would I want a teacher or employer to see this? If not, don't post it. Your digital footprint is permanent.

Build Your LinkedIn

Create a professional profile highlighting your skills, education, and achievements. Connect with classmates and mentors.

Share Positively

Share your accomplishments, interesting articles, and support others. Be the person people want to connect with online.

Digital Literacy

EMAIL ETIQUETTE

Clear Subject Lines & Greetings

Start with a specific subject line that tells the reader what to expect. Always begin with a proper greeting like "Dear Professor" or "Hi Team" to set a professional tone.

Concise & Polite Messaging

Keep your emails brief and to the point. Use polite language, say please and thank you, and avoid ALL CAPS which can seem like shouting. Be respectful of the reader's time.

Always Proofread

Before hitting send, always review your email for spelling errors, grammar mistakes, and tone. A quick proofread can prevent embarrassing mistakes and miscommunication.
